1. REVIEW OF OPERATION

The Company has been gradually gearing up its performance level to consolidate its position in the face of stiff competition in the market with firm commitment & sustained efforts. The company expects to maintain persistent growth in the years to come. You shall be happy to note that during the period 2012-13, your Company has achieved a substantial growth, both in turnover and profits

Net Sales increased by.....54% to Rs. 20951.24 lacs

PBDIT increased by.....34% to Rs. 611.98 lacs

Profit before tax increased by.....47% to Rs. 276.24 lacs

Net Profit increased by.....48% to Rs. 217.98 lacs

2. FUTURE OUTLOOK

During the course of current financial year, the Board has witnessed an impressive rise in demand mainly due to public awareness for usage of commercial cylinders in commercial applications in the place of domestic cylinders and accordingly the Company expects to perform better. The Management has taken adequate steps to cater the future demand for consolidating its position in the market. LPG being more economical in comparison with others fuels and the industry will gain significance not only in the Eastern Region, but also throughout India. The company has also decided for setting up/or purchase more Bottling Plant/Auto LPG Retail Outlets (Dispensing Stations) which will require substantial investment in future. The company is evaluating all the options to propel its expansion plans. After government's restriction on supply of subsidised LPG in domestic sector the company is planning to enter in domestic supply of LPG and this will open new avenue. Further the company decided to engage itself and work in the field of conventional and non-conventional form of energy and power. India is one of the few countries which have plenty of hydro, tidal, wind & solar energy available which can be easily harnessed. Hence to grab this opportunity the company alters it's MOA under section 192A and the same is approved by the Registrar of Companies, West Bengal.

A. BOTTLING SEGMENT

The company caters the commercial cylinder market of West Bengal, Bihar and Orissa from its own bottling plant situated at Durgapur. The company already stepped forward to set up few new LPG bottling plant at strategically potential locations to cover Central and Southern India as well for marketing its "EAST GAS" brand commercial LPG cylinders. This will add to company's presence in Domestic, Commercial and Industrial segment. With various government checks on Domestic LPG supplies the company expects that the Domestic sector will also open up as Good Avenue.

B. BULK LPG

The Company expects good growth in this segment due to the conversion of major industries from Coal/ other alternate fuels to LPG/Propane due to Environment concerns. LPG being a cleaner and cheaper fuel is preferred choice of the Industrial Customers. The company is also exploring opportunities throughout India as usage of LPG in Industrial houses is growing.

C. AUTO LPG

The Company has already commissioned its 1st ALRO in West Bengal with the plan to make the chain of 100 Auto LPG Refilling Outlets throughout India in coming years.

**3. DIVIDEND**

The Board believes that it will be prudent for the company to conserve resources in view of future expansion programs inline for the coming year, which will enhance the profitability to a great extent. Hence, your directors are not recommending any dividend for the Financial Year 2012-13.

4. ISSUE OF SHARE CAPITAL

There was further issue of share capital during the year of Rs. 6,43,02,000/- for 64,30,200 Equity Shares of Rs. 10/- each at a premium of Rs 7/- per share which have been allotted on Preferential Basis.

5. MANAGEMENT DISCUSSION AND ANALYSIS

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY STRUCTURE AND DEVELOPMENTS:

India is working towards self-reliance in O&G segment and has immense potential to achieve the same, as about 80 per cent of the country's sedimentary area is yet to be explored. Recent large-scale oil and gas discoveries in the Krishna Godavari and Rajasthan basins have further consolidated India's confidence to achieve the targets. India stood out as one of the top contributors to growth in the refining sector in 2013, according to the International Energy Agency (IEA). The latest report released by the international entity shows that the country processed 4.5 million barrels per day (mbpd) of crude oil in October 2012, (680, 000 bpd higher than a year earlier).

Thus the market of LPG is growing and Government of India also takes many initiatives for growth of this sector. The Indian oil ministry has set targets to reduce energy import dependency from current 80 per cent to 50 per cent by 2020.

FINANCIAL PERFORMANCE REVIEW OF THE COMPANY

A critical appraisal is made by the Audit Committee before drawing Quarterly Statement of Accounts and the Board also reviewed the same on each occasion.

The company has outperformed in the year 2012-13 compared to the year 2011-12. Total income has gone up from 13,593 lakhs to 20,951 lakhs, operating profit from 384.96 lakhs to 527.39 lakhs and net profit before tax from 187.86 lakhs to 276.24 lakhs.

1. Share Capital – The company has authorised share capital of Rs. 1500 lakhs comprising of equity shares of face value Rs.10/- The paid up share capital is Rs.1500 lakhs . During the year company issued 64, 36,200 shares at a premium of Rs.7 per share.
2. Reserve and Surplus – Total accumulated profit as on 31/03/2013 is Rs. 1,047.94 lakhs.
3. Loan Profile – The Company has taken secured loan of Rs. 3.81 lakhs and the unsecured loan stands to Rs. 37.79 lakhs.
4. Fixed Assets – During the year under review, total additions to the gross block of assets was Rs. 40.67 lakhs. Full additional investment in fixed assets was funded out of internal accruals.
5. Investments – The Company has not made any fresh investment in capital market during the year.
6. Cash and Bank Balance – The Company had adequate liquidity of Rs.103.61. lakhs in the various Bank Accounts.

SEGMENTWISE OR PRODUCTWISE PERFORMANCE

The company is engaged primarily in the business of bottling & trading of LPG. Hence Segment wise operational performance is not applicable.

OUTLOOK

The company has achieved its highest sales turnover during the year. In view of the undergoing economic reforms the prospect of the Industry seems certain. The Management of the Company has been keeping close watch to take this opportunity even at the risk of more investment in the sector. LPG will see growing consumption in India despite the availability of more natural gas from KG basin, Gail, etc. This is due to the ease of transportation unlike natural gas which requires huge investment in infrastructure such as pipelines and a gas grid. All segments of the LPG business, including Industrial supplies, Commercial LPG and Auto LPG dispensing stations are expected to see high growth.

The management has further decided to engage itself and work in the field of conventional and non-conventional form of energy and power. India is one of the few countries with plenty of hydro, tidal, water, wind solar, wind available and could be easily harnessed. The Indian Renewable Energy Development Agency and the Ministry of Non-Conventional Energy Sources are formulating a programme to have solar and other energy & power in more than a million households in the next few years. To grab this upcoming opportunity management has decided to import the renewable energy products and allied equipment to set up in India.

RISK & CONCERNS

The Management has taken steps to keep its position intact in the market which is predominated with stiff competition. Close and constant touch is being maintained with all the customers while trying to develop new customer base. The Company has also been in touch with its Suppliers so as to ensure un-interrupted regular supply of the product. Corporate Governance Policy clearly laying down roles, duties and responsibilities of various entities in relation to risk management is in place. Given below is a brief of the underlying risks:

- 1. Interest Rate Risk** – Few fixed and current assets are financed by Bank and Financial Institutions (FI) at different floating rates linked to prime lending rates of respective Bank/FI. Company has also taken term unsecured loan from bank at fixed rate. Accordingly, the company is exposed to cash flow interest rate risk on its secured loans. The company analyses its interest rate exposure regularly.
- 2. Credit Risk** - Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The Company makes advances to suppliers and vendors in the normal course of its business. The Company also makes advances to employees and places security deposits with related parties and restricted margin money deposits with banks. The majority of the Company's sales to its customers are on credit. These transactions expose the Company to credit risk on account of default by any of the counterparties. Credit risk is managed through credit approvals and continuously monitoring the creditworthiness of counterparties. The Company classifies all of its financial assets as 'loans and advances' and 'sundry debtors'.
- 3. Liquidity Risk** - Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through an adequate amount of committed credit facilities. The company ensures flexibility in funding by maintaining availability under committed credit lines.
- 4. Industrial Sales Dependency** – The largest contribution to the company's turnover is from supplies made to Reputed Industrial Houses. This scenario is due to the low developed Commercial cylinder market and non start of Auto LPG Retail Outlets (ALRO). Company is currently venturing and moving forward it's expected to be a major growth driver for the company de-risking its business model suitably.
- 5. Competitive Scenario** – The LPG is highly competitive industry with major stake of PSU's and MNC's in the industry. The company is proud to reiterate that its services cater to various segments of the market. The Company keeps close touch with customers and keeps close watch on new industrial developments to keep track of changing demand and supply trends.
- 6. Government Subsidy** - The major threat to our industry is again the subsidies provided by the Central Government to the PSU's only. The entire private sector faces competitive pressures from the PSUs, which enjoys access to lower costing due to the subsidies available to them. The company is thus basically focusing on commercial segment of LPG and Auto Gas where there is no subsidy allowance even by the government and company is also targeting the high class domestic consumer who prefers to pay then waiting for long for subsidised cylinders.
- 7. Market Risk** - Fluctuations in the demand supply gap in the future can have significant impact on the realizations and on the competitive scenario. The Company's objective therefore is to understand measure and monitor these risks regularly, and take appropriate measures to minimize their impact. The Company has taken several initiatives to mitigate the market risks associated with its operations. The company, over the years, has continuously invested in creating strong bond of relationship and brand image which have led to significant increase in market share in relevant markets. This has also helped the Company to command a premium on its products, even in relatively adverse market conditions. The company has further initiated a detailed micro-market analysis to foresee the demand supply situation in different markets.
- 8. Regulatory Risk** - There is a fair amount of regulatory control exercised by the Government on the LPG business. Legislative changes resulting in changes in the taxes, duties and levies, whether local or central, also impact business performance and relative competitiveness of the business.
- 9. Alternate Fuel** - Natural Gas is slowly emerging as an alternative to LPG. Coal to liquid conversion based on coal gasification (CBM) is also a potential alternative, considering the abundance of coal in India in comparison to oil and gas. Other alternatives include Wind Power, Hydropower, Biomass, Solar thermal power, Ethanol and Bio-Diesel. The company is keeping close watch on the same and would be adding more product base in its basket in future.
- 10. Other Risks** - The other threats were higher cost of various inputs, higher transportation cost including increase in fixed cost from time to time. The strategies are constantly re-worked to minimize adverse implications, if any.

INTERNAL CONTROL SYSTEMS & ADEQUACY

The company has an adequate internal control system commensurate with the size and nature of its business. Internal audit programme covers various areas of activities and periodical reports are submitted to the management. The Audit Committee reviews financial statements and Internal Audit reports along with internal control systems. The Company has a well-defined organizational structure, authority levels and internal rules and guidelines for conducting business transactions.

**Independent Auditor's Report****To the Members of EASTERN GASES LIMITED****Report on the Financial Statements**

We have audited the accompanying financial statements of Eastern Gases Limited ("the Company") which comprise the Balance Sheet as at March 31, 2013, and the Statement of Profit and Loss and Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management Responsibility for the Financial Statements

Management is responsible for the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the Accounting Standards referred to in sub-section (3C) of section 211 of the Companies Act, 1956 ("the Act"). This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India:

- a) in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2013;
- b) in the case of the Profit and Loss Account, of the profit for the year ended on that date; and
- c) in the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2003 ("the Order") issued by the Central Government of India in terms of sub-section (4A) of section 227 of the Act, we give in the Annexure a statement on the matters specified in paragraphs 4 and 5 of the Order.
2. As required by section 227(3) of the Act, we report that:
 - a) we have obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - b) in our opinion proper books of account as required by law have been kept by the Company so far as appears from our examination of those books
 - c) the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d) in our opinion, the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement comply with the Accounting Standards referred to in subsection (3C) of section 211 of the Companies Act, 1956;
 - e) on the basis of written representations received from the directors as on March 31, 2013, and taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2013, from being appointed as a director in terms of clause (g) of sub-section (1) of section 274 of the Companies Act, 1956.
